# ASSEMBLY INSTRUCTIONS - example of configuration with 2 floor lamps

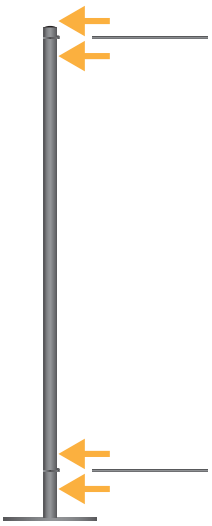

**1.** Join the circular base to the vertical pole, fixing the parts with the screw and Allen key supplied.

**2.** Thread 2 rings on each pole at the desired height.
(repeat the operation for both poles)

**3.** Lock the rings at the desired height by acting on the central knob with the Allen key supplied.
(repeat the operation for both poles)

**4.** Insert the horizontal tubulars into the hole in the rings and lock by acting on the bolt with the Allen key supplied

**5.** Insert the horizontal crosspieces into the buttonholes of the print.

**6.** Join the second pole by inserting the tubulars into the holes in the rings and lock with the supplied Allen key as done previously.

**NOTE:** As an alternative to flexible sheets, it is also possible to combine rigid sheets with the poles.
(without using horizontal crosspieces)
