

DURAFRAME® POSTER

Advertise what you have - with magnetic corinics

The ideal product to attract attention to advertising or information in poster formats.

DURAFRAME POSTER is an adhesive frame characterized by a very thin design, with a front panel magnetic, suitable for glass surfaces or smooth surfaces

and solid, from which it can be removed and repositioned for optimal positioning.

The frame, being double-sided, allows the contents to be viewed on both sides. The replacement of posters is quick and easy: simply open the magnetic frame and position them vertically or horizontally.

STRONG POINTS

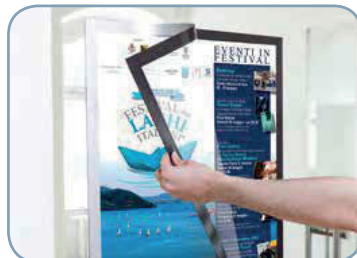

Position the frame easily and quick on the part inside the window.

Perfect display of contents on both sides.

Removal and replacement of posters quick and easy thanks to the magnetic front panel.

Anti-reflective protective layer with UV stabilizer.
