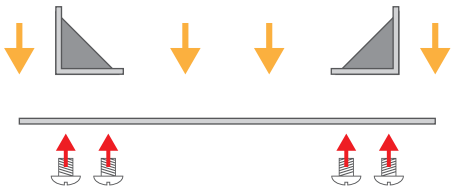
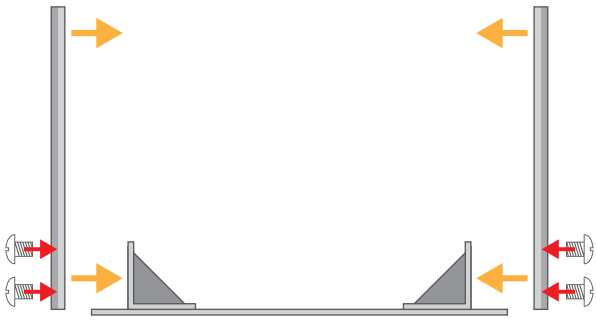
ASSEMBLY INSTRUCTIONS - TOTEM H150/200 slim/large

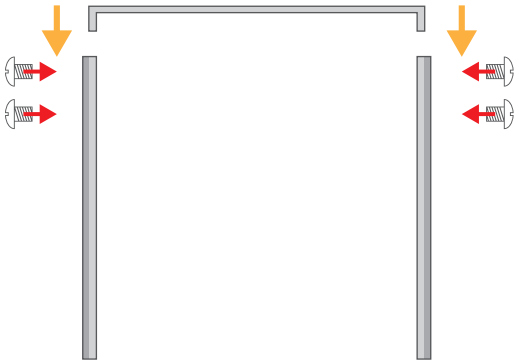
FRONT VIEW



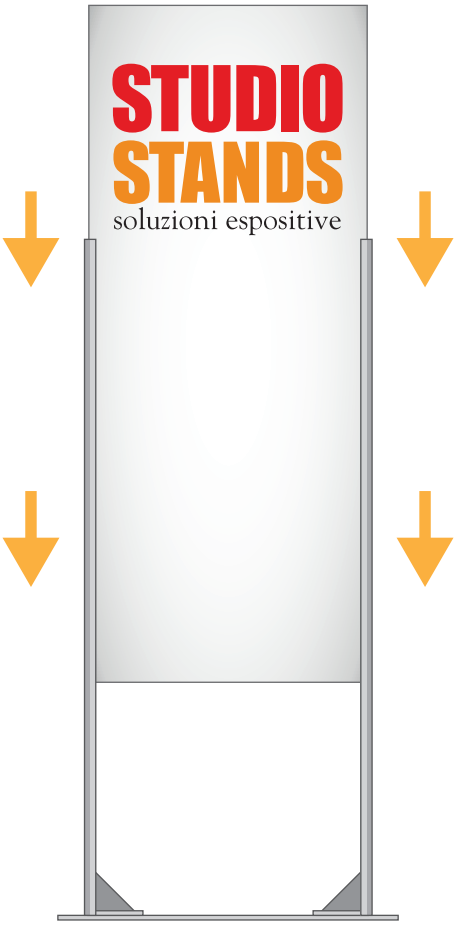
1. Apply the two corner brackets to the larger elliptical plate and secure with the screws supplied.



2. Apply the shoulders to the corner brackets and secure with the screws supplied.



3. Apply the bracket to the upper end of the shoulders and secure with the screws supplied.



4. Insert the printed panels into the appropriate shaping of the shoulders by simply sliding them.

5. Attach the top cover and secure with the supplied screws.

NOTE

There are holes in the base of the Totem to allow anchoring to the ground (where possible) and guarantee greater stability.
Alternatively, it is possible to insert ballasts in the central compartment between the panels.
