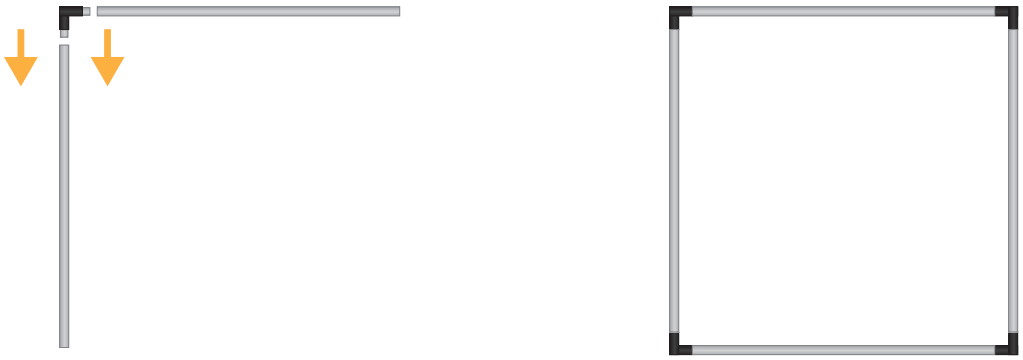
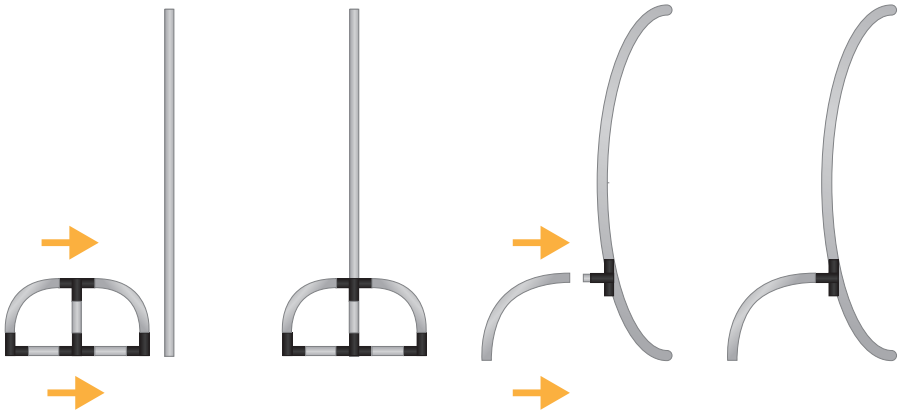
ASSEMBLY INSTRUCTIONS



1. Compose the structure by simply joining together tubulars and fittings according to the chosen configuration.
The structure assembly process is the same for all three versions of Wave - straight, horizontal curve and vertical curve.

2. Apply the print by inserting the structure into the slot, tension and secure with the existing Velcro.

SIDE VIEW



3. Apply the interlocking feet to the covered structure.
(the Wave Curva horizontal version does not require the use of support feet)
