TECHNICAL SPECIFICATIONS

Description	Frame dimensions (mm) - w x h	Frame weight	Package dimensions (mm) - l x w x d	Package weight
Pin S	1050 x 2160	1,2 kg	1530 x 140 x 80	1,5 kg
Pin M	1230 x 2550	1,4 kg	1530 x 140 x 80	1,7 kg

FRAME ASSEMBLY

NOTE: We recommend assembling the frame with two people for safety reasons.

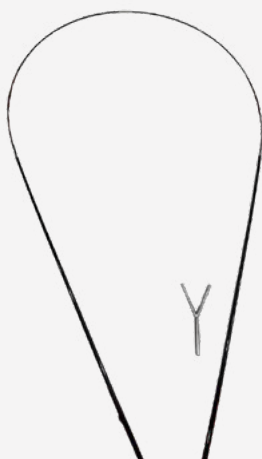

1

Connect the two thinner poles by inserting the metal end of one pole into the connector of the other.

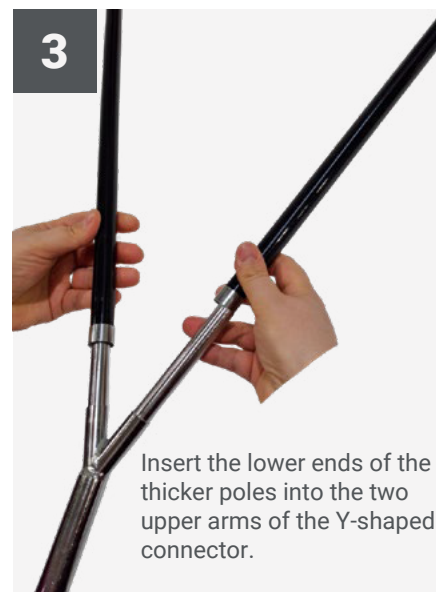

2

Bend the newly connected thin pole and attach both ends to the two thicker poles.

3

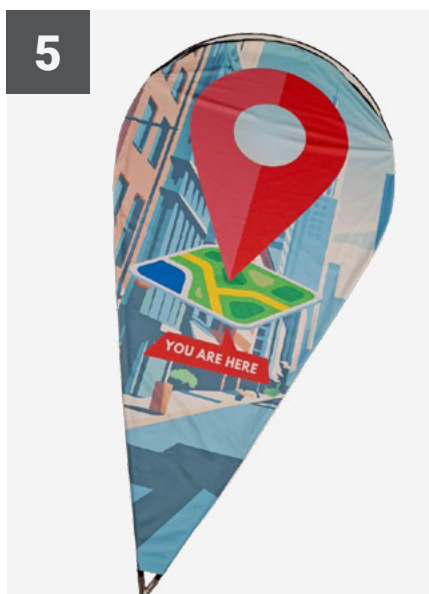

Insert the lower ends of the thicker poles into the two upper arms of the Y-shaped connector.

4

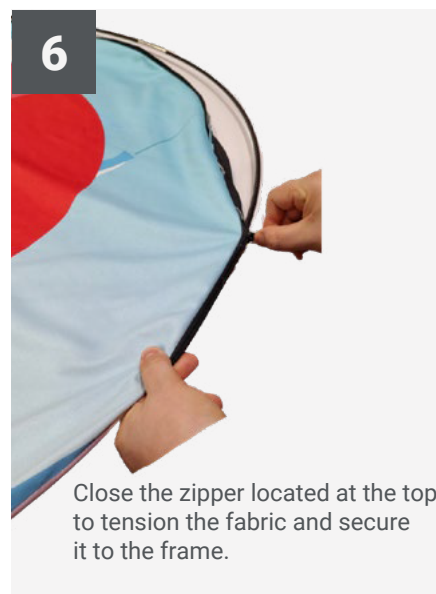

Slide the printed fabric onto the frame starting from the bottom (the side with the Y connector) and pull it over the entire structure.

5

6

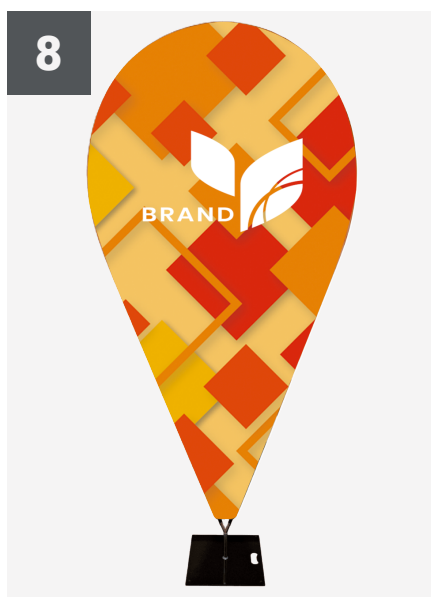

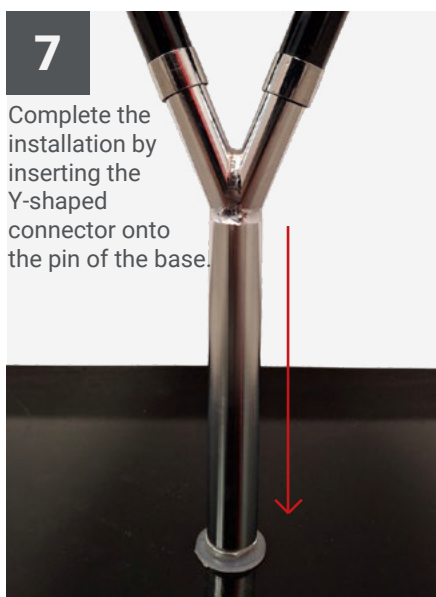

Close the zipper located at the top to tension the fabric and secure it to the frame.

NOTE: While installing the graphic, the poles may move slightly. We recommend checking that they remain correctly positioned to achieve the best result.

FRAME ASSEMBLY

RECOMMENDED BASES

Indoor bases are compatible with:

6 L weight ring

Ground spike

Indoor bases				✓	✓
Base	Name/Code	Dimensions	Ballasted weight	Size Small	Size Medium
