DIGITAL SIGNAGE DECISION GUIDE

choose the right digital!

Read this before you start the guide!

This is our Digital Display Decision Guide. In this guide, we will help you to select the right digital for the occasion you need. Without needing technical knowledge. We are here to support you!

First up, why get started with Digital Signage? Digital Signage are the next generation of promotional signs and advertising! The combination of a high-resolution Samsung screen and a steady customisable housing is the base of your Digital Display.

Going digital only has benefits for you!

- Flexible advertising, change your content anytime you with vibrant colours
- Save time and resources, manage and update content remotely
- Cost efficiency on the long run
- 2 years of warranty
- Minimum order quantity starts at 1 piece
- Remotely create and control content with Samsung VXT CMS
- Communicate quickly and increase audience engagement
- Suitable for various environments like retail, hospitality, events and public spaces

Using a Digital Display has never been easier. You don't have to be a technician to use a Digital Display! It allows you to effortlessly showcase engaging and dynamic content to attract your audience and achieve your communication and promotional goals. All digitals will come with a standard Plug & Play system. It's as easy as it sounds: Put your content on a USB stick, plug it into your digital and play! Or expand your possibilities with Samsung VXT CMS. This is a Content Management Software that makes it even easier to play and adjust your content. Control and adjust content on all your devices remotely at once, from anywhere in the world. [Click here for more information.](#)

Unable to find your solution in our existing assortment? No worries! We can personalise your Digital Signage according to your needs and wishes based on the standard product or conceptual design. Our Research and Development (R&D) team is ready to serve you. [Click here for more information.](#)
